PORTABLE STEAM SAUNAS

P&S PORTABLE STEAM SAUNAS

All the health and fitness benefits of a quality steam sauna in your own home. The portable sauna is the affordable alternative to expensive and inconvenient gym and club visits.

RELAXATION

There is nothing quite like a sauna to relax you after a stressful day. With regular use you will sleep better and feel more alert.

THE HEALTH BENEFITS

The positive health benefits of steam saunas have been known for centuries in many world cultures. Now you can experience these benefits for yourself in the privacy of your own home.

Steam saunas were used in ancient Rome and Greece.

BODY CLEANSING

Body toxins, pollutants and the stress of modern living are major causes of many health problems. A short time in your sauna will help to release harmful toxins from deep within your system naturally and safely.

WEIGHT CONTROL

A good diet and regular exercise in combination with your sauna, will help you keep fit and trim.

EASY AND CONVENIENT

The portable sauna can be set up anywhere there is a power point, simply unfold, fill the steamer with water to the desired mark on the side of the steamer and switch on.

SAUNA TENT

The zip has been designed and made to the highest standard for this product and it also has a double headed nylon fastener for easy use from both inside the tent as well as out. The seat of this product has been designed to mould in with the contours of the body for maximum

comfort and is strong enough to withstand 160kg in weight, and has been tested to BS safety standards.

PORTABLE

The strong lightweight construction makes it child's play to carry, use and store.

SAFE AND DURABLE

The steamer is fully approved to British electrical safety standards and CE approved, and the aluminium frame and special insulated cover is designed for years of trouble free use.
